**Author    Speaker    Mindset Missionary**

Born and raised on the south side of Chicago. My mother was divorced twice. I never knew my father and never connected with my step-father. We struggled for many years with money issues, and I carried that with me when I moved to San Diego, CA in 1987. I also brought my blue-collar mentality.

I've worked many different jobs, but spent the greater part of my working career in the computer support arena. At the age of 54, I lost a job of 15 years with a phone call. It would be almost 2 years before I worked again.

In the meantime, I never suffered the depression or down times the "experts" say I should have. The reason why not turned out to be in the materials I'd been consuming since my 20's, from people like Wayne Dyer, Robert Ringer, Esther Hicks and others. Today, I use these concepts to help others to see life's curve balls as a part of the process, rather than as excuses to play the victim card.
